SUMMARY

Full Stack Developer with hands-on experience in **Java, Spring Boot, React, Flutter, and MySQL**. Built real-world projects including a **supplier-assistance chatbot**, a **Leave Management System**, and a **creative Wedding Planner frontend**, focusing on **user-friendly interfaces, efficient backend logic, and scalable solutions**. Skilled in **REST API development, cloud deployment (AWS), and automated testing with Selenium and TestNG**, eager to deliver high-quality software that drives impact.

EXPERIENCE

Intern

Suguna Foods

May 2025 - July 2025, Coimbatore

- During my internship at Suguna Foods Private Limited, I contributed to developing an intelligent supplier-assistance chatbot system. The application, built using Flutter, Spring Boot, and MySQL, automates responses to supplier queries and FAQs, improving communication efficiency. I was involved in both the frontend and backend development — integrating APIs, designing database structures, and ensuring smooth user interaction. This project strengthened my full-stack development skills and gave me hands-on experience in building real-world enterprise solutions.

PROJECT

Bus Ticket Booking System

Completed as a self-directed project under personal learning and skill development.

- Developed a Bus Ticket Booking System using Spring Boot with CRUD operations, pagination, and filtering features. Gained practical experience in REST API development and backend architecture as part of personal learning.

Interactive Query Response Chatbot

Suguna Foods Private Limited

- During my internship at Suguna Foods Private Limited, I contributed to developing an intelligent supplier-assistance chatbot system. The application, built using Flutter, Spring Boot, and MySQL, automates responses to supplier queries and FAQs, improving communication efficiency. I was involved in both the frontend and backend development — integrating APIs, designing database structures, and ensuring smooth user interaction. This project strengthened my full-stack development skills and gave me hands-on experience in building real-world enterprise solutions.

Wedding Planner

- Developed a creative frontend web application for a wedding planner studio as a freelance project, showcasing services through immersive and responsive design.

Leave Management System

- Developed a full-stack, role-based Leave Management System using React, Spring Boot, and MySQL to automate leave tracking and streamline approval workflows.

EDUCATION

Bachelor of Computer Science And Engineering

SRI KRISHNA COLLEGE OF TECHNOLOGY • WWHG+28R, Golf Rd, Arivoli Nagar, Vivekanandapuram, Kovaipudur, Tamil Nadu 641042

• 2023 - Present • 7.75

12th Grade

SNS MATRIC HIGHER SECONDARY SCHOOL • 2008-2023 • 87.5%

CERTIFICATIONS

NPTEL - Effective Writing

NPTEL - Database Management System

AWARDS & HONORS

SKILLS

Programming Languages: Java, SQL, HTML, CSS

Frontend Development: React, Flutter

Backend Development: Spring Boot, REST API Development

Database Management: MySQL

Cloud Platforms: Amazon Web Services (AWS)

Software Testing: Selenium, TestNG, Hybrid Frameworks

Version Control & Tools: Git, GitHub
